

What have we been doing?

We have set up our first Eco Committee who have been very busy planning the different ways we are going to make our school grounds even better!

The Eco Committee held a Whole school Gardening day. We went to a Garden centre and bought tools and seeds and everybody had great fun planting flowers and vegetables. Not everything that we planted grew but the carrots did and we ate them all! Also, we have started composting and can't wait to use our own homemade compost!

What are we going to do?

We have written an Action plan so that everybody knows what will be happening and who has to do the work. In the garden we are going to plant more vegetables and flowers, build a plastic bottle greenhouse, paint our tyres and plant potatoes, plant a wild flower garden, make a heather rockery, buy musical instruments and make our own assault course!

Thank you very much

for the money you gave us. We couldn't do all the fun things we want to do without your help.

Mòran taing bhon a h-uile duine aig Bun-sgoil Ghàidhlig Inbhir Nis.

(A letter sent to Scottish Widows who donated £5000 to our School Grounds project)
